PROFILE SUMMARY

Computer Science Engineering student sitting at the intersection of software testing, frontend development, and data analytics — proficient in Java, React.js, SQL, and Power BI, with hands-on SDLC/STLC exposure. Combines a QA mindset (test case execution, defect tracking in Jira and Zephyr Scale) with the ability to build the very interfaces being tested, translating usability findings directly into cleaner UI/UX. Seeking an entry-level Software Engineer, QA Engineer, or Software Testing role.

SKILLS

Programming & Web: Core Java, JavaScript, HTML, CSS, React.js

Data & Analytics: SQL, Power BI, MS Excel, Data Visualization & Reporting

Software Testing: Test Case Design & Execution, Functional Testing, UI/UX Testing, SDLC, STLC, Bug Reporting, JUnit

Tools & Platforms: GitHub, Jira, Zephyr Scale, Trello, IntelliJ IDEA, Firebase, Supabase, Netlify

PROFESSIONAL EXPERIENCE

Software Testing Intern, PRAM Edu

12/2025 – 02/2026 | Remote

- Executed 50+ manual functional, usability, and cross-platform test cases across web and mobile applications, ensuring seamless navigation and end-to-end system reliability.
- Identified, tracked, and documented 15+ UI/UX and functional defects in Jira and Zephyr Scale, delivering detailed reproduction steps and logs to accelerate developer bug triage.
- Wrote and executed JUnit test cases to automate core regression checks, reducing repetitive manual test cycles and catching functional breaks earlier.
- Authored daily execution summaries and structured test reports detailing pass/fail metrics, edge-case findings, and actionable UI/UX recommendations for cross-functional teams.

PROJECTS

HappiMoM, Unified Maternal & Reproductive Health Platform

08/2025 – 10/2025

Role: Frontend & Web Developer

- Developed responsive web interfaces using React.js, JavaScript, HTML, and CSS, prioritizing accessible design, intuitive workflows, and smooth cross-device compatibility.
- Analyzed user interaction data using Google Analytics to optimize user journeys, refine frontend workflows, and improve overall platform engagement.
- Integrated Supabase and Firebase to manage real-time application data and support backend functionality.

Tech: React.js, JavaScript, HTML, CSS, Firebase, Supabase, Google Analytics, Netlify

Academic Performance Analysis System, Data Analytics

11/2024 – 01/2025

Role: Data Analyst

- Consolidated and cleaned academic assessment data across multiple student batches in Excel for structured data modeling.
- Developed interactive Power BI dashboards to visualize performance metrics and cross-subject performance trends.
- Documented data transformation workflows and presented dashboard insights to an audience of 60 students.

Tech: Power BI, Excel, Data Visualization & Reporting

AI-Powered Smart Virtual Laboratory, Artificial Intelligence

07/2026 – Present

Role: Full-Stack Software Developer

- Designed an AI lab assistant feature to detect real-time errors, explain underlying issues, and deliver contextual feedback to learners.
- Built a real-time faculty monitoring module to track student experiment progress and completion rates.
- Structured user interaction workflows and system architecture to optimize remote virtual laboratory navigation.

Tech: React.js, MySQL Workbench, AI, Node.js, Remote Lab Access

EDUCATION

BE, Computer Science and Engineering, Mahendra Institute of Technology

10/2023 – 10/2027

*CGPA: 9.4**

Higher Secondary, Nadar Saraswathi Girls Higher Secondary School

06/2022 – 03/2023

Computer Science — 86.5%

SSLC, Nadar Saraswathi Girls Higher Secondary School

06/2020 – 03/2021

State Board of Tamil Nadu-passed

CERTIFICATIONS & ACHIEVEMENTS

- Top 10 Team, Code Mavericks — InnovHack 2026, GDG on Campus, SASTRA University (competitive multi-college hackathon).
- Certificate of Appreciation — Cognizant Technoverse Hackathon 2026, corporate-sponsored innovation challenge.
- The Complete 2026 Software Testing Bootcamp, Udemy — 38.5 hrs, manual & defect-tracking workflows.

WORKSHOPS & SYMPOSIUMS

- AINNOVAT-2K25, National Level Technical Symposium, Department of AI & Data Science, Mahendra Engineering College
- ISTE National-Level Technical Symposium, Paper Presentation
- Innovations in Data Science & Visualization, Two-Day Workshop, Mahendra Institute of Technology
